YOUR ERGONOMIC POSSIBILITIES

Kontour™ K1 reduced height mounts take the series to a new level by giving you even more ways to create the perfect ergonomic solution.

In addition to all the great features standard to the Kontour K1 Series, these new solutions provide a lower reach for users needing a lower-positioned monitor as well for a number of common applications.

Here's how to decide whether the standard or reduced height product is right for your project:

<i>Standard</i> KONTOUR MOUNTS	<i>Reduced Height</i> KONTOUR MOUNTS
Typical desktop use for most users	Ideal for bi-focal wearers or other users needing lower monitor viewing height
Supports sit-to-stand use	Improved ergonomics for touch panel, Slate PC or tablet users
Provides elevated viewing angle if desired	Great for podium mounted applications

CHIEF® KONTOUR™ REDUCED HEIGHT MONITOR MOUNTS
