

Finding Chief Products is Easy.

Chief's MountFinder™ makes it easy to find mounts that are compatible with a huge range of TVs and projectors. Simply enter your AV product in the search box or select it from the drop-down menus and get a list of results.

Missing Your Model?

We have two dedicated staff members researching new projector and TV models every day. Click the "Don't see your model #?" link and let us know what we're missing.

Chief has the most comprehensive MountFinder in the industry, with over 30,000 models and counting!

The screenshot shows the Chief MountFinder website interface. At the top, there are navigation tabs: Home, Products, Applications, Company, Tools, and Support. A search bar at the top right contains the text "mfg, model, or keyword". Below the navigation, the main content area displays search results for "SONY - FWD50P". The search results are sorted by "Most Popular" and show a list of products. Two products are visible: "TS525TU Large THINSTALL Dual Swing Arm Wall Mount - 25" Extension" and "PNRIW2000B Large Low-Profile In-Wall Swing Arm Mount - 22" (without interface)". Each product listing includes a small image, a "Compare" checkbox, and a description. To the left of the search results is a "Refine Search" sidebar with filters for Certification (FCC, UL Listed), Color (Black, Silver), Orientation (Portrait, Landscape, Custom), and Category (TV Mounts, Carts-Stands, Ceiling, In-Wall, Wall-Tilting). To the right of the search results is a "MountFinder™" sidebar with options for Flat Panel or Projector, a "Select Manufacturer" dropdown, a "Find Mounts" button, and a link for "Don't see your model #?". Below the "MountFinder™" sidebar are sections for "Recently Viewed" and "Tools" (Get Chief Certified, Become a Dealer in 3 Easy Steps). Handwritten annotations in black text are overlaid on the screenshot: "Search Manufacturer & Model" with an arrow pointing to the search bar; "Filter Search Results" with an arrow pointing to the "Refine Search" sidebar; "Check Products to Compare" with an arrow pointing to the "Compare" checkboxes on the product listings; and "Missing Your Model?" with an arrow pointing to the "Don't see your model #?" link.
